TOWN BOARD ANNOUNCES TOWN CENTER PARK PUBLIC PARTICIPATION SCHEDULE

*Clifton Park Residents and Stakeholders Will Have Opportunity to
Offer Input at Series of Events and Vision Workshops*

The Clifton Park Town Board in collaboration with the Town Center Park Planning Committee announced today the beginning of a series of visioning workshops, tours and “pop up” workshops as part of the public participation process into the future design for the Town Center Park located at Exit 9.

The Town Board will follow the same template used in long range, comprehensive, public planning studies, such as the Town Open Space Plan, Western Clifton Park GEIS, Town Center Plan and other important planning initiatives. In 2018, the Town Center Park Planning Committee conducted a rigorous RFP process to secure a professional consultant to work with the Town. The Committee recommended the Town Board select the joint application submitted by Elan Planning, and Behan Planning and Design.

The various events will be led by Town officials alongside Elan Planning, and Behan Planning and Design. The events, which are both informal and formal, will allow Clifton Park residents and community stakeholders to provide their thoughts and ideas for the future of the 37 plus acre park.

“The comprehensive, public planning process will include a series of public events and workshops designed to guarantee multiple opportunities for people to learn about the 37-acre property and fully engage in the planning process. The Town Board appreciates the tremendous amount of time and effort invested by many in this endeavor to date and we are eagerly anticipating a vigorous and successful planning process,” said Town Supervisor Phil Barrett.
