

Clifton Park
TOWN CENTER PARK PLAN

What is the Town Center Park Plan?

The Town of Clifton Park is embarking on a community planning project to develop a vision and conceptual design for park enhancements at the recently acquired 37-acre property formerly owned by the school district. This property, now public parkland, is located east of Moe Road, north of Arongen and Shatekon Elementary Schools, and west of Maxwell Drive Extension. The goal of this plan to ultimately develop a conceptual design for the parkland which will reflect the community's desire for what to do with this wooded property, currently one of the last undeveloped areas in the town center. We hope that you will be able to join us at one of our events and provide input on how you think this property should be used for the best community benefit.
